SINGAPORE Student Learning Space

Enable Pop-ups

Background

- The enabling of pop-ups in SLS will allow for the download of responses and marks from heatmap, zipped resources from Community Gallery/MOE Library, and support the use of Apps (eg.iMTL)
- The guide will consist of a series of steps on how to enable pop-ups for the following browsers:
- 1. macOS Safari Browser
- 2. macOS Chrome Browser
- 3. Windows Chrome Browser
- 4. iOS Safari Browser
- 5. Android Chrome Browser

1. For macOS Safari Browser

1. For macOS Safari Browser

- From the window header, click Safari to open the dropdown menu.
- Click **Preferences... to** open the settings page.

Conclusion

- This slide deck shows how you can enable pop-ups on your devices (macOS, windows, iOS, Android).
- You have to enable pop-ups for the download of marks, responses and zipped resources.
- The use of Apps, such as iMTL, will also require you to enable pop-ups.

End
